

SCHEDULING

Contact Dennis Parnell to schedule your classes today. We will conduct the classes in one day or over a couple of sessions to complete your six Professional Growth Hours. The training can be a combination of classroom and hands-on instruction.

Our safety consultants will complete the required paperwork and submit for your professional growth hours and issue a certificate at the end of the class. As always with Water and Wastewater classes, the participant must be present for the entire class time to receive a certificate.

**Dual Credit Workshop
\$40/person**

**CALL DENNIS WITH YOUR
